To Whom It May Concern:

We have reviewed the Benchmark Mileage Tracking system. It is an excellent piece of software which we have no doubt will be of great assistance to employers who have to comply with the extremely complex rules which apply where an employee is allowed the use of a company car for private purposes.

This system is an excellent tool which will be of immense value to employers and payroll staff and we confirm that in our opinion, it meets all of the reporting requirements of Section 121 of the Consolidated Tax Acts 1997 and of the Irish Revenue Commissioners, in relation to the need to record the business and personal mileage of employees, for purpose of correctly calculating the rate of Benefit in Kind which applies to the private use of a company car.

Yours sincerely,

Eamonn Corcoran  
Chairman  
Irish Payroll Association
